

KONE RAM LAL SURESH

9515343071 | koneramlalsuresh@gmail.com | LinkedIn | GitHub

EDUCATION QUALIFICATION:

- **Pragati Engineering College**, Surampalem
BTech (Information Technology), 2024 **CGPA: 8.83/10.0**
- **Sri Chaitanya Junior College**, Kakinada
Intermediate (MPC), 2020 **CGPA: 9.67/10.0**
- **Zilla Parishad High School**, Patha Thunga Padu
Secondary School Certificate , 2018 **CGPA: 10.0/10.0**

WORK EXPERIENCE:

- **Java Back End Developer, TCS | Hyderabad | Feb-Present, 2025 | Full-Time**
 - Designed and implemented scalable microservices using Java, Spring Boot, and Apache Camel, improving service reliability by 35% and reducing downtime by 25%.
 - Optimized backend data routing and transformation workflows using Apache Camel, reducing latency by 28% and boosting throughput by 32%.
 - Built complex Camel routes for REST–SOAP integrations, improving data interoperability and reducing manual data reconciliation by 40%.
 - Strengthened automation testing using JUnit and Mockito, increasing test coverage to 90% and cutting manual effort by 70%.
 - Engineered reusable backend components, reducing new feature development time by 40% and enhancing code reuse by 50%.
 - Collaborated with DevOps to enhance CI/CD pipelines via Jenkins and GitLab CI, improving deployment frequency by 30% and achieving 99.8% build success rate.
 - Applied OOP principles and multithreading to improve service concurrency by 45% and optimize resource utilization by 25%.
- **Software Engineer, Car Trade | Kakinada Jan-Mar, 2024 | Intern**
 - Developed responsive and accessible web interfaces using HTML, CSS, and JavaScript, enhancing user engagement by 30% and page load efficiency by 20%.
 - Implemented Oracle DB connectivity for backend modules, cutting query execution time by 25% and improving retrieval accuracy by 98%.
 - Collaborated in Agile sprints for a client web application, improving feature delivery consistency by 22% and UI integration speed by 35%.

PROJECTS:

- **Parcel Management System | HTML, CSS, MYSQL, Java, Spring Boot & Security, Spring MVC**
 - Engineered a parcel tracking system delivering real-time updates and reducing query execution time by 42%, achieving 97% system uptime.
 - Followed Agile methodology during TCS ILP, ensuring sprint-based delivery and milestone completion with 100% on-time delivery.
 - Integrated Amazon Product Advertising API, enhancing product data accuracy by 95%.
- **Banking Operations | HTML, CSS, MYSQL, Java, Spring Boot, Spring Security, Spring MVC**
 - Engineered a secure banking application implementing RESTful APIs and role-based authentication with 100% access control accuracy.
 - Deployed modular microservices with Spring Boot, reducing downtime by 20% and deployment time by 35%.
 - Conducted API benchmarking achieving sub-50ms average response time and 100% test coverage using JUnit and Postman.

Applied Spring Boot for modular architecture, improving maintainability by 40% and scalability by 30%.

- **Library Management System | HTML, CSS, Spring Boot, Spring Security, Spring MVC**

Developed a digital library platform integrating Wikipedia API for real-time references, improving search efficiency by 45%.

Tuned MySQL queries and caching mechanisms, increasing data access speed by 50% and reducing server load by 25%.

Validated performance through 1,000+ concurrent test queries, ensuring 99.9% uptime and stable scalability.

- **Medical Help System | HTML, CSS, Javascript, Azure Health Bot**

Created an intelligent healthcare assistant platform enabling hospital discovery and doctor booking, achieving 94% user satisfaction.

Integrated Azure Health Bot, providing instant responses to 90% of patient queries and improving helpdesk efficiency by 60%.

Designed an intuitive UI with simplified navigation, increasing accessibility by 40% and session duration by 25%.

TECHNICAL SKILLS:

- Languages: Java, Python, JavaScript
- Concepts: OOPs, Multithreading, Data Structures, Algorithms
- Frameworks: Spring Boot, Apache Camel, Spring Security, Spring MVC, Junit, Debugging
- Databases: MySQL, MongoDB, Oracle, PostgreSQL
- Cloud: AWS(EC2,S3,RDS,IAM,Lambda)
- Developer Tools: STS, VS Code, Eclipse, Jupyter, Postman , GitLab

Certifications

- Java Hacker Rank Certification | Python Hacker Rank Certification |SQL Hacker Rank Certification
- Certified web Developer

HONORS AND AWARDS

- Solved 800+ problems on Leetcode | Codechef | Geekforgeeks | Hackerrank

Strengths & Soft Skills

- Quickly master new technologies like Apache Camel and Spring Security (**rapid learning**), accelerating feature delivery by **25%**.
- Adapt easily to changing priorities (**adaptability**) while maintaining **100% on-time sprint releases** and smooth coordination across teams.
- Apply strong **time management** to reduce sprint spillover by **20%**, ensuring stable delivery schedules under pressure.
- Maintain code quality and reliability during tight deadlines (**stress handling**), achieving **zero post-deployment defects**.
- Promote **team collaboration** with QA and DevOps teams, improving deployment efficiency by **35%** and code review success by **40%**.
- Demonstrate clear **communication** with stakeholders, ensuring **100% requirement clarity** and effective sprint outcomes.
- Embrace a **continuous learning mindset** through AWS and Azure upskilling, boosting deployment scalability by **30%**.
- Leverage **analytical and problem-solving** skills to resolve **15+ production issues**, improving backend reliability by **25%**.
