PROFESSIONAL SUMMARY

Software Development Engineer with 2+ years of experience designing and developing scalable backend applications using Java, Spring Boot, Microservices, REST APIs, Apache Kafka, Apache Camel, Redis, SQL, and AWS. Experienced in building enterprise telecom applications, designing distributed systems, optimizing API performance, and delivering production-ready backend solutions. AWS Certified Solutions Architect – Associate with strong expertise in Data Structures, Algorithms, and System Design.

EXPERIENCE

Tata Consultancy Services (TCS) Feb 2025 – Present | Software Development Engineer Hyderabad, India

- Engineered 12+ Java Spring Boot microservices, implementing REST APIs, business logic, exception handling.
 - Created 20+ RESTful services, implementing request validation, payload mapping, API testing, and downstream systems.
 - Configured resilient Apache Camel routes for 20+ integrations, reducing service failures by 30%.
 - Implemented Apache Kafka event streaming across 20+ microservices, improving system throughput and scalability by 35%.
 - Delivered 30+ production enhancements and resolved critical production defects within an 8-member Agile Scrum team.
-

EDUCATION

• Pragati Engineering College (Autonomous), JNTUK | B.Tech. in CSE (Information Technology) | **2020–2024** | **CGPA: 8.83/10**

TECHNICAL SKILLS

- **Languages:** Java 17, Python, JavaScript (ES6+).
 - **Backend:** Spring Boot, REST APIs, Microservices, Apache Kafka, Apache Camel, Redis, Spring Data JPA.
 - **Security & Databases:** Spring Security, JWT, RBAC, Authentication, Authorization, MySQL, Oracle, H2.
 - **Frontend & Development Tools:** React.js, HTML5, CSS3, Responsive Web Design, Postman, Kibana, STS, IntelliJ IDEA, VS Code
 - **Cloud & DevOps:** AWS (EC2, S3, RDS, IAM, VPC, CloudWatch, Auto Scaling, EBS), Git, GitLab, Maven, Jenkins
-

PROJECTS

DISTRIBUTED JOB SCHEDULER PLATFORM | Java, Spring Boot, Apache Kafka, Redis, MySQL, JWT, RBAC | Duration: 2 Months

- Architected a high-throughput job scheduler processing 10,000+ jobs/day, improving execution scalability by 40%.
- Leveraged Apache Kafka for asynchronous job execution, reducing processing latency by 35% under peak workloads.
- Secured REST APIs using JWT authentication and RBAC, enabling centralized job scheduling and monitoring.

PARCEL MANAGEMENT PLATFORM | Java, React.js, Spring Boot, Apache Kafka, Redis, MySQL, JWT | Duration: 1.5 Months

- Engineered RESTful backend services processing 5,000+ parcel bookings/month, improving operational efficiency by 40%.
 - Enhanced application throughput using Apache Kafka, Redis caching, and database indexing, reducing database load by 50%.
 - Created responsive React.js interfaces with real-time REST API integration for parcel tracking and management.
-

CERTIFICATIONS

- [AWS Certified Solutions Architect – Associate](#)
 - [Microsoft Azure AI Engineer Associate \(AI-102\)](#)
 - [Microsoft Azure Fundamentals \(AZ-900\)](#)
 - [EPAM Certified Java Developer](#)
-

ACHIEVEMENTS

- Selected among 1M+ project submissions in the TCS Future Ready Talent Program.
 - Received the Star Sprint Award for consistently delivering high-quality sprint deliverables and production enhancements.
-

CODING PROFILES

- **LeetCode:** Contest Rating – 1500+ | Regular participant in Weekly & Biweekly Contests | [LeetCode Profile](#)
 - **HackerRank:** 5★ in Java, Python & SQL | [HackerRank Profile](#)
 - **CodeChef:** 2★ (Max Rating: 1553) | Participated in 50+ weekly coding contests | [CodeChef Profile](#)
-

CORE COMPETENCIES

- Backend Development, Java Development, Spring Boot, REST API Development, Microservices Architecture.
- Distributed Systems, System Design, Data Structures & Algorithms, CI/CD, Performance Tuning, Debugging & Root Cause Analysis.
- Object-Oriented Programming, Database Management Systems (DBMS), Operating Systems
